

PlusTick Product Suite

A range of tick data services with options from FTP file delivery to an onsite database or a fully hosted service.

Through its Real-Time Services business, Interactive Data offers PlusTickSM, a suite of tick data products and services for the collection and distribution of data from approximately 200 global sources. The PlusTick product suite includes:

■ PlusTick FTP

PlusTick FTP is a daily file that delivers time-and-sales, and cross-reference data from over 100 global equities, futures and options exchanges, designed for back testing trading strategies, proof of best execution and compliance checks.

PlusTick FTP features:

- No infrastructure required
- Daily FTP files containing a full day's tick data for Level I equities, indices, futures and options from more than 100 global exchanges
- Trades-data only files available for key US exchanges
- FTP push or pull
- Standard or customized solutions
- Global content
- Geographic redundancy: two data collection centers
- Flexible delivery options

■ PlusTick Server

A deployed service designed to provide a tick container to capture, store and manage millions of real-time tick messages. Ideally suited to provide quick access to local tick data for algo testing, back testing trading strategies and real-time charting.

PlusTick Server features:

- A managed service
- Low latency data access

- Local data storage
- Global content from Level 1 & Level 2 exchanges
- Real-time/delayed data for intra-day analytics
- Tick, intra-day (one-minute bar) and end-of-day data (currently US markets only)
- 25 days of tick history. Customizable to user defined length
- Dedicated customer support and monitoring
- Same protocol/API as PlusFeedSM
- Plugs into Client Site Processor (CSP) and presents unified interface
- Scalable solution

■ PlusTick Hosted

A hosted version of PlusTick Server designed to provide easy access to intra-day tick data and analytics and to help reduce the infrastructure required by the client.

PlusTick Hosted features:

- No client-side infrastructure needed
- Quick time to market
- Global content
- Tick, intra-day (one minute bar) and end-of-day data for U.S and London equity and futures markets
- Approximately 25 days of historical tick data and 90 days of minute bar
- Lower cost of ownership
- Same protocol/API as PlusFeed
- Dedicated customer support and monitoring
- Delayed data for intra-day analytics
- Access as part of the PlusFeed VPN solution

About Interactive Data Corporation

Interactive Data Corporation is a trusted leader in financial information. Thousands of financial institutions and active traders, as well as hundreds of software and service providers, subscribe to our fixed income evaluations, reference data, real-time market data, trading infrastructure services, fixed income analytics, desktop solutions and web-based solutions. Interactive Data's offerings support clients around the world with mission-critical functions, including portfolio valuation, regulatory compliance, risk management, electronic trading and wealth management. Interactive Data is headquartered in Bedford, Massachusetts and has over 2,400 employees in offices worldwide.

Interactive Data's Real-Time Services business is a leading provider of real-time global market data to financial institutions, redistributors and online financial portals worldwide. Offerings from Interactive Data include PlusFeed, a consolidated, low latency datafeed. Also managed as part of this business is Interactive Data's Managed Solutions business, a leading provider and operator of customized financial market information systems.
