

# BondEdge OnDemand

Interactive Data's fully-hosted service provides a simple, cost-effective and flexible option for managing your mission-critical portfolio processing functions.

BondEdge® OnDemand offers clients an alternative to installing and managing BondEdge as an in-house software application. It enables BondEdge customers access to a fully-hosted solution, minimizing the resources associated with maintaining and supporting an on-site installation.

In addition, BondEdge OnDemand offers portfolio processing and other data management related services that will be performed and monitored by the BondEdge Service Bureau team, enabling you to focus on your investment management processes.

## ■ BondEdge OnDemand can help clients address challenges associated with:

- Time and cost of maintaining servers and hardware needed to run analytics applications
- High expenses associated with supporting and maintaining in-house analytics applications
- Internal back-up and redundancy systems
- IT resources to support overnight data update and portfolio import process

## ■ BondEdge OnDemand offers:

BondEdge software application hosting:

- Server and BondEdge software hosted remotely at Interactive Data's high-performance data centers
- Daily back-up of BondEdge software and other related files
- Internet-based access to BondEdge system on a secure site
- Daily or monthly BondEdge data updates
- Disaster recovery support

- Ongoing BondEdge system upgrade implementation and support
- Full BondEdge system archives for up to 12 monthly systems and access to prior month-end/quarter-end BondEdge System

Portfolio processing and monitoring:

- Automation of a broad range of critical services, including portfolio source file processing, BondEdge database updates, portfolio holdings processing and portfolio report generation
- 24/7 monitoring services and support by BondEdge Service Bureau team
- Portfolio exceptions analysis
- Local bond modeling assistance
